DETAILED ACTION***Double Patenting***

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 68 – 72 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 – 47 of U.S. Patent No. 6274950. The rationale for this rejection was presented in the previous Office Action mailed January 10, 2003.

3. Claims 65 – 67 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 – 47 of U.S. Patent No. 6274950 in view of the reference of McClure (US 5349282 A). The rationale for this rejection was presented in the previous Office Action mailed January 10, 2003.

4. Claims 50 – 64 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 – 47 of U.S. Patent No. 6274950 in view of the reference of McClure (US 5349282 A) and Masson (US

4673826). The rationale for this rejection was presented in the previous Office Action mailed January 10, 2003.

Examiner's Note

5. The examiner called Mr. Shane Hunter (Reg. # 41858) regarding a terminal disclaimer that appeared to be inadvertently missing from the response filed July 1, 2003. Mr. Hunter indicated that a terminal disclaimer would be filed in response to the next communication from the Office.

Allowable Subject Matter

6. Claims 73 – 76 are allowed.

7. Claims 50 – 72 would be allowed, if an terminal disclaimer addressing the double rejections of the claims were to be filed.

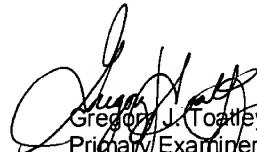

8. The following is a statement of reasons for the indication of allowable subject matter: The examiner agrees with the applicants arguments in the response filed July 1, 2003, that prior art record does not teach or suggest a plurality of "smart" batteries (term of art for batteries which have microprocessors integrated therein) and a UPS with a processor where the processors for the batteries and the processor for the USP are in communication as claimed.
